

# INSPIRE – Are we ready?

Andrew Trigg  
Land Registry

# The UK Context

- No coordinated approach to SDI
  - Intra-government Group on GI (IGGI)
  - Local Government Association (LGA)
  - Digital National Framework (DNF)
  - e-Government Unit (in Cabinet Office)
  - gi-Gateway
- 12 organisations to coordinate for PCC
- Government policy on trading PSI
- Dept. for Environment, Food and Rural Affairs (Defra) was lead for INSPIRE political process
- Uncertainty over future lead for transposition and implementation

# The way forward?

- INSPIRE Directive agreed
  - Administratively – not well prepared
  - Technically – better prepared
- British Isles LR coordination – INSPIRE WG
- GI Panel
- UK GI Strategy – INSPIRE aware
- At cadastral level need to ensure compatibility between UK GI Strategy and EuroGeographics Cadastral Vision

Thank you
