 - ELRA - invited
 - CLGE – invited and presented

REPORT OF THE CZECH PRESIDENCY

Czech workplan proposal from Paris:

1. Questionnaire about

Electronic identity for access to cadastral data – conflict of the information openness and security issues

Solution in different European countries

2. Workshop and Plenary meeting in Prague

PROPOSED CZECH TOPIC FOR THE PCC MEETING

„Cadastre Role in Information Support of the Infrastructure Development Necessary for Enhancement Energy Independence and Meeting Environmental Goals“

QUESTIONNAIRE ON THREE TOPICS

- Preparation of the Questionnaire in cooperation with CLRKEN EG based on planned topics of the conference
 - Innovations in the Field of Cadastre with regard to integration with utilities/technical infrastructure – change of energy resources
 - Cadastral Data, its role in supporting environmental goals – enhancement of the cadastre content (public restrictions, mining areas, nature protection etc.)
 - Cadastre openness and GDPR – digital identity of persons – obligation or right

JOINT EG CLRKEN AND PCC CONFERENCE

- Organization of the conference – three main topics – following the previous presidencies and based on the Questionnaire
- Excellent participation both in-person and online – enabling knowledge and experience exchange without serious restrictions
- Participation of 38 representatives in person and another 37 online from nearly all EU countries (26), as well as from observing countries and cooperating organizations
