

Gävle 1 July 2009

Dear Colleagues,

As president of the Permanent Committee on Cadastre in the European Union it is my pleasure to welcome you to the second half of the year 2009. I wish to thank our Czech colleagues for their successful achievements during their presidency. Sweden took over the presidency from the Czech Republic at the June meeting in Prague and I assure you that it is our aim to continue our colleagues' excellent work.

The Swedish presidency will present the results of the work at the next plenary meeting on 10th and 11th December 2009, in Tällberg, Sweden.

Main topics for the Swedish presidency are:

- Continued cooperation with other member countries and EuroGeographics
- Survey on different Cadastral organisations and possible cooperation between them
- Preparation of the third edition of the official PCC brochure on cadastral information systems

To be able to achieve our objectives I hope that we can continue to cooperate with the same good spirit and engagement as we have had this far.

I would also like thank the Spanish General Directorate for their support and work with the Eurocadastre website and I look forward to cooperate with them during this autumn and during their presidency next spring.

Finally I wish us all a successful autumn and that our cooperation will continue in the same open and friendly way as it has been up until today.

Yours sincerely

Stig Jönsson

Director General

Lantmäteriet –

Swedish mapping, cadastral and land registration authority.
